

Atiya Batool

BS COMPUTER ENGINEERING

Foundation University School of Science and Technology 03318661916 attiyabatool731@gmail.com

Computer Engineering undergraduate with a current CGPA of **3.88**. A motivated student with strong interest in software development, embedded systems, digital design and signal processing. Receiving a university scholarship since the 2nd semester.

PROJECTS

Lung Health Risk Assessment System

OOP Project • C++

- Developed an object-oriented application for lung health risk assessment.

Mini Assembler

8086 Assembly Language • Computer Architecture & Organization

- Implemented a mini assembler using 8086 Assembly Language.

Online Voting System

Computer Programming Project • C++

- Designed a secure online voting system using C++.

Fire Alarm

Circuit Analysis Project

- Designed and tested a fire alarm circuit.

Metal Detector

Digital Logic Design Project

- Built a metal detector using digital logic concepts.

Real-Time Signal Processing System for ECG & EEG

Signals & Systems • MATLAB

- Designed and analyzed ECG and EEG signal processing with comparative study.

Spell Checker

Data Structures & Algorithms • C++

- Developed a spell checker using efficient data structures.

EDUCATION

BS Computer Engineering

Foundation University School of Science and Technology
Expected Graduation: June 2028
CGPA: 3.88

FSc

79%

Matric

81%

ACHIEVEMENT

- University Scholarship Recipient (Since 2nd Semester)

SKILLS

Programming

C++

MATLAB

8086 Assembly

Concepts

OOP

Digital Logic

Signal Processing

DSA
